PROFESSIONAL SUMMARY

Senior Front-End Developer with 10 years of experience building responsive, web applications using React, Next.js, Angular, and modern JavaScript. Known for translating complex requirements into clean user interfaces.

TECHNICAL SKILLS

Languages:	JavaScript, TypeScript
Frameworks & Libraries:	React, Next.js, Angular, Redux, JQuery
UI & Styling:	HTML, CSS, SCSS/LESS, Tailwind, Bootstrap
Tools:	Webpack, Npm, Gulp
Testing:	Playwright, Jest, Karma
APIs & Data:	RESTful APIs, JSON, MySQL, MongoDB
Tools & Platforms:	Git, Jira, Figma

WORK EXPERIENCE

Freelance Developer January 2023 - Present

- Designed and developed responsive, customer-facing web applications using **React, Next.js, Angular, JavaScript, HTML5, CSS3, Tailwind and Bootstrap**.
- Collaborated directly with clients to gather requirements, translate business needs into technical solutions.
- Integrated **RESTful APIs** and third-party services for data-driven user experiences.
- Translated **Figma** designs and mockups into clean, accessible, **mobile-first interfaces**.
- Provided ongoing maintenance, performance optimization, and cross-browser compatibility support.
- Make use of **GitHub Copilot and LLM tools** into daily workflows to enhance UI development speed, code refactoring, and technical documentation.

Senior Front End Developer March 2021 - December 2022

Bond Brand Loyalty

- Built and maintained applications using **Angular, React, Next.js, Redux, Javascript, JQuery, HTML5, CSS3, Tailwind, and Bootstrap**.
- Created reusable components and managed state with **Redux**, streamlining team development.
- Created **RESTful APIs** to serve front-end data.
- Developed and executed **unit tests** using **Jest/Karma** to validate APIs and ensure the functionality of user interaction.
- Mentored junior developers, improving team performance and accelerating delivery timelines.
- Strengthened team workflows through testing, code reviews, and agile practices.
- Coordinated with product owners and stakeholders to scope work, estimate effort, and ensure on-time delivery.

Senior Front End Developer March 2019 - March 2021

Affinity eSolutions

- Delivered responsive web applications using **Angular, React, HTML5, CSS3** and **SASS/LESS**, enabling faster delivery across the team.
- Refactored legacy front-end code, resulting in a 35% performance boost and improved developer onboarding time.
- Led a team of junior developers, enforcing best practices and conducting code reviews.

- Turned **Figma** designs into pixel-perfect, production-ready components, reducing design to developer handoff time.
- Built mobile-first interfaces, improving accessibility and usability across all devices.
- Streamlined team workflows by integrating **GitHub** and **TFS** for **version control**.

Front End Developer

August 2016 - March 2019

Dacgroup

- Developed dynamic SPAs with **Angular** and **MongoDB** for robust client-side performance.
- Built dashboards with **Highcharts** that helped marketing and analytics teams make better decisions.
- Implemented responsive **HTML/CSS** email templates for boosting marketing campaigns results.
- Led a team of four in delivering a high-performance **Angular SPA**, improving app speed and reliability.
- Collaborated with cross-functional teams to deploy new features and address production issues.

Front End Developer

August 2015 - March 2016

National Board of Medical Examiners

- Modernized legacy Flash pages by converting them into clean, efficient code using **HTML5**, **CSS3**, **JavaScript**, and **jQuery**, ensuring compatibility and accessibility.
- Contributed to the development of public-facing applications utilized by medical students for tests and exams, enhancing user experience and reliability.
- Designed and built an Angular-based application for code generation, enabling product managers to streamline the creation of exam components for universities.

EDUCATION

Bachelors of Computer Science

Ryerson University, Toronto

2007 - 2012
